Corporate Governance Report

COMPLIANCE STATEMENT

It is the policy of Fincorp Investment Limited ("the Company" or "Fincorp") to ensure the highest standard of business integrity, transparency and professionalism in all its activities and to ensure that the activities within the Company are managed ethically and responsibly to enhance business value for all stakeholders. As an essential part of this commitment, the Board subscribes to and is fully committed to comply with the National Code of Corporate Governance for Mauritius ("the Code").

Throughout the year ended 30 June 2026, to the best of the Board's knowledge, the Company has applied the principles set out in the Code and has explained how these have been applied in this Corporate Governance Report.

The Company is a public interest entity, as defined under the First Schedule of the Financial Reporting Act 2004.

1. GOVERNANCE STRUCTURE

1.1. Conduct of affairs

The objective of the Board is to define the Company's purpose, strategy and values and determine all matters relating to the direction, policies, practices, management and operations of the Company.

The Board has adopted a Charter which sets out the objectives, roles and responsibilities and composition of the Board. The Board reviews the Charter on a regular basis. The Board Charter is available for consultation on the Company's website, fincorp.mu.

1.2. Code of Ethics

The Company is committed to the highest standards of integrity and ethical conduct in dealing with all its stakeholders. The MCB Group Limited (the "MCB Group" or "MCBG"), the ultimate holding Company, has adopted a Code of Ethics which is applicable to all its subsidiaries, its employees and directors. The Code has been approved by the Board of Directors and is published on the website of the Company. The Group encourages a corporate culture that promotes ethical and responsible decision-making throughout the organisation by way of Group-wide awareness of its operating beliefs and principles.

The Code of Ethics is regularly reviewed at MCB Group level and compliance thereto is monitored at both Company and MCB Group levels.

1.3. Statement of Accountabilities

The Directors have approved the following Statement of Accountabilities:

- The Board assumes the responsibility for leading and controlling the Company and meeting all legal and regulatory requirements. Directors are aware of their legal duties.
- The Board is accountable for the performance and affairs of the Company and for achieving sustainable growth.
- The Board is responsible for ensuring that the Company adheres to high standards of ethical behaviour and acts in the best interests of shareholders.
- The Board has the responsibility of reviewing and approving the results and announcements of the Company.

The roles and responsibilities of the Chairperson, the Directors, the Chief Executive Officer and the Company Secretary are clearly defined in the Board Charter and the Position Statements adopted by the Company.

Key roles and responsibilities

Chairperson	• Provides overall leadership to the Board; • Ensures that the Board is effective in its tasks of setting and implementing the Company's direction and strategy; • Presides and conducts meetings effectively; • Ensures that Directors receive accurate, timely and clear information; • Ensures that development needs of the Directors are identified and that appropriate training is provided to continuously update the skills and knowledge of the Directors; and • Maintains sound relations with shareholders.
Directors	• Contribute to the development of strategy; • Ensure that financial information released to the market and shareholders is accurate; • Ensure that the Company has adequate and proper financial controls and systems of risk management; • Actively participate in Board decision-making; • Provide specialist knowledge and experience to the Board; and • Remain permanently bound by fiduciary duties of care and skill.

Chief Executive Officer	• Sets the Strategy and Direction; • Supports and assists the Board; • Manages the day-to-day affairs of the Company; • Assesses the principal risks and ensures that these risks are monitored and managed; • Ensures compliance and monitors that the Company is abiding to specific internally established control systems, to procedures set by relevant authorities and to legal framework and ensures that good governance principles are adhered.
Company Secretary	• Ensures compliance with all relevant statutory and regulatory requirements; • Provides the Board as a whole and Directors individually with guidance as to their roles and responsibilities; • Assists the Chairperson in governance processes such as Board and Committee evaluation; • Develops and circulates agendas for meetings and drafts minutes and ensures follow ups; and • Ensures that the shareholder's interests are taken care of and acts as primary point of contact.

1.4. Organisation Chart

Mr. Frédéric Tyack was appointed as Chief Executive Officer of the Company in January 2025. The CEO is accountable to the Board for the implementation of company strategy, the execution of Board-approved decisions and the overall management and performance of the Company.

2. THE STRUCTURE OF THE BOARD AND ITS COMMITTEES

2.1. Board Structure

The Board is unitary and currently comprises 2 Independent, 3 Non-Executive Directors and 1 Executive Director including 2 female Directors, as shown below:

NAME	GENDER	COUNTRY OF RESIDENCE	BOARD APPOINTMENT
Jean-Pierre Montocchio	M	Mauritius	Non-Executive director and Chairperson
Jean-Philippe Coulier	M	Mauritius	Non-Executive director
Navin Hooloomann	M	Mauritius	Independent director
Marivonne Oxenham	F	Mauritius	Non-Executive director
Frédéric Tyack	M	Mauritius	Executive director
Margaret Wong Ping Lun	F	Mauritius	Independent director

2.2. Board Size and Composition

The Board regularly reviews its size and composition to ensure that there is an appropriate balance of expertise, skills and experience amongst its members. All members of the Board possess the necessary knowledge, skills, objectivity, intellectual honesty, integrity, experience and commitment to make sound judgements on various key issues relevant to the business of the Company and to protect the interests of shareholders, clients and other stakeholders.

In assessing independence, the Board considers the criteria set out in the Companies Act 2001 and the National Code of Corporate Governance for Mauritius.

Taking into consideration the size of the Company and the scope and nature of its operations, the Board considers that the current number of 6 Directors is appropriate for enabling effective decision-making. The Board also considers gender diversity, with female representation on the Board currently standing at 33% in line with the minimum prescribed by the Mauritius Companies Act 2001.

2.3. Directors' Profile

Jean-Pierre Montocchio (Non-Executive Director and Chairperson)

Born in 1963, he was appointed notary public in Mauritius in 1990. He participated in the National Committee on Corporate Governance as a member of the Board of Directors' Sub-Committee. He is a Director of a number of listed companies in Mauritius.

Directorships in other listed companies:

- Almarys Ltd
- ER Group Ltd
- Happy World Property Ltd

After working in the UK for 5 years, Navin returned to Mauritius and is the Chief Executive Officer of Rider Levett Bucknall (Mauritius) Ltd, which is part of a Global Construction and Cost Management Consultancy firm operating in 120 countries worldwide, and runs the regional offices of Seychelles, Maldives and Sub-Saharan Africa. Navin has a track record of over 36 years in the construction/ real estate industry in the regional and international scene, having been involved on some of the largest construction projects in the Indian Ocean.

Marivonne Oxenham (Non-Executive Director)

Marivonne is the Managing Director of MCB Group Corporate Services Ltd, ("MCBGCS"). She is a fellow Member of The Chartered Governance Institute and has over 25 years of work experience within the MCB Group. She was the Managing Director of MCB Registry & Securities Ltd which offered both Secretarial and Registrar and Transfer Agent services prior to a restructuring whereby the Secretarial services are now being offered by MCBGCS. She fulfils the Company Secretarial function for MCB Group Limited and The Mauritius Commercial Bank Limited and oversees the company secretarial services of various other subsidiaries of the Group.

Frédéric Tyack (Executive Director)

Mr Frédéric Tyack was appointed as Chief Executive Officer of Fincorp Investment Ltd on 16th January 2025. He is a qualified and experienced professional Chartered Accountant and holder of a BSc in Accounting and Finance from the London School of Economics and Political Science. Frédéric is a seasoned professional specialising in strategic management, business alliances, and operational excellence and he has extensive international and local experience across various industries, namely real estate, logistics, ground handling and manufacturing.

Directorships in other listed companies:
Promotion and Development Ltd
Medine Limited
MFD Group Limited
Tropical Paradise Limited
Oceanarium Limited

Margaret Wong Ping Lun (Independent Director)

Margaret holds a BA (Hons) in Business Studies (UK) and is a Fellow of the Institute of Chartered Accountants in England and Wales. Prior to her retirement as lecturer in Accounting and Finance at the University of Mauritius, she was a Senior Manager at De Chazal Du Mée's Consultancy Department. She was a former member of the Listing Executive Committee of the Stock Exchange of Mauritius Ltd. She was appointed to the Board of MCB Ltd in 2004 and was a Director thereof until March 2014, after which she joined the Board of MCB Group Ltd following the restructuring of the Group, until November 2019. She currently serves the Board of various subsidiaries of the MCB Group.

2.4. Attendance at Board and Board Committee meetings during financial year 2025/2026

	Board	**Audit Committee**
Number of meetings held	4	4
	Meetings attended	**Meetings attended**
Jean-Pierre MONTOCCHIO	3/4	N/A
Jean-Philippe COULIER	4/4	4/4
Navin HOOLOOMANN	4/4	4/4
Marivonne OXENHAM	4/4	N/A
Frédéric TYACK	4/4	N/A
Margaret WONG PING LUN	4/4	4/4

2.5. Company Secretary

MCB Group Corporate Services Ltd acts as Company Secretary to the Company. The Company Secretary has 4 qualified Chartered Secretaries with more than 20 years of experience each. The Company Secretary also acts as Secretary to the Committee/s of the Board. Profiles of the representatives of the Company Secretary may be viewed on the website of the Company.

2.6. Committees of the Board

The Board currently has one sub-committee, the Audit Committee.

The Audit Committee currently comprises three members namely Mrs Margaret Wong Ping Lun, Chairperson, Mr Jean-Philippe Coulier and Mr Navin Hooloomann. The Audit Committee operates under a Charter that is approved by the Board and which is reviewed periodically. The Charter of the Audit Committee is available on the website of the Company.

The main roles and responsibilities of the Audit Committee include regular reviews and monitoring of the following:

- Effectiveness of the internal financial control systems.
- Independence of the external audit process and assessment of the external auditor's performance.
- Compliance with accounting standards, local and international, and with legal requirements.
- Annual financial statements to be submitted to the Board.

3. DIRECTOR APPOINTMENT PROCEDURES

3.1. Appointment Process

The Board of Directors may at any time appoint any person to be a Director either to fill a casual vacancy or as an addition to the existing Directors up to a maximum number permitted by the Memorandum and Articles of Association of the Company. The appointed Director remains in office until the next Annual Meeting of Shareholders where the Director shall then be eligible for re-election.

The nomination and appointment processes are carried out by the Board in consultation with the Corporate Governance and Sustainability Committee ("CGSC") of MCB Group Limited ("MCBG"), the ultimate holding Company of Fincorp.

The CGSC identifies suitable candidates by determining whether they meet the criteria established by the CGSC, are fit and proper and are not disqualified from acting as Director/s. The CGSC then proposes the selected candidate/s to the Board of the Company. Once the Board has reviewed and is satisfied with the profile of the candidate/s, the Board shall appoint the Director/s either to fill a casual vacancy or as an addition to the existing Directors until the next Annual Meeting of Shareholders where the Director/s shall then be eligible for re-election.

3.2. Time commitment

Each Director is expected to devote sufficient time and attention to the affairs of the Company. The Board of Directors does not believe that its members should be prohibited from serving on Boards of other organisations unless the number of directorships limits the amount of time they are able to dedicate to being a Director of the Company. The Company anticipates a time commitment of around 10 days per year. This will include attendance at Board and Committee meetings, the Annual Meeting of Shareholders, meetings as part of the Board evaluation process, as well as training and development programmes. There is always the possibility of additional time commitment in respect of ad hoc matters that may arise from time to time, and particularly when the Company is undergoing a period of increased activity. The external obligations of the Chairperson have not changed materially during the Financial Year 2025/2026 and those obligations have in no way hindered the discharge of his duties and responsibilities.

3.3. Induction of new Directors

New Directors are provided with an induction pack, comprising of the Company's constitutive documents and the minutes of recent Board meetings. An introductory meeting is also organised with the Chief Executive to explain the business activities and strategy of the Company.

The Chairperson and the Company Secretary are readily available to answer any further queries that the newly appointed Director may have with respect to the Company.

The induction programme meets the specific needs of both the Company and the newly appointed Director and enables the latter to participate actively in Board discussions.

3.4. Professional Development

Directors are encouraged to keep themselves up to date with the professional practices and industry-related developments. The Chairperson regularly reviews and comes to an agreement with each Director, if necessary, on his or her training and development needs. Upon request from the Directors, the Company shall provide the necessary resources for developing and updating the skills and knowledge of the Directors so that they fulfil their role on the Board and its Committees.

As part of their continuing professional development, directors undertook an online Anti-Money Laundering and Combating the Financing of Terrorism (AML/CFT) awareness programme designed to enhance their understanding of money laundering, terrorism financing and proliferation financing risks, applicable regulatory requirements, and their oversight responsibilities in relation to the MCB Group's AML/CFT framework.

Furthermore, during the year, Directors completed online information security awareness training aimed at enhancing their understanding of cyber risks, data protection and security best practices. The training reinforced the importance of safeguarding information assets and supporting a strong culture of security and risk awareness across the MCB Group.

3.5. Succession planning

MCBG is one of the largest Group of companies in Mauritius with a large pool of talent with different skills, academic and professional qualifications, and expertise in various fields of business. The MCB Group strategy includes the recognition and fostering of talents within executive and management levels across the Group thus ensuring that opportunities are created to develop current and future leaders. MCB Group is able to identify suitable profiles for independent directors through its extensive professional network and engagement with relevant professional bodies, as well as other appropriate channels.

The Chairperson of the Board is responsible for overseeing the succession planning for the Board in collaboration with the Executive Director and the CGSC of MCB Group Limited.

4. DIRECTOR DUTIES, REMUNERATION AND PERFORMANCE

4.1. Legal duties of Directors

The Directors are aware of their legal duties and are responsible for ensuring that the activities of the Company are managed ethically and responsibly, in line with relevant laws and regulations. The Directors exercise the required standard degree of care, skill and diligence which a reasonable prudent and competent Director in his or her position would exercise.

4.2. Register of Interests

The Company Secretary maintains a Register of Interests that is regularly updated with the information submitted by the Directors. The Register is available for consultation by shareholders upon written request to the Company Secretary.

4.3. Whistleblowing Policy

The MCB Group Limited has adopted a Whistleblowing Policy which is applicable to all its subsidiaries, its employees and directors. This policy aims at providing an avenue for issues to be raised in good faith, concerns of potential breaches of laws, rules, regulations or compliance. The whistleblowing mechanism is designed to motivate responsible actions to uphold the Group's reputation.

This policy, which has been approved by the Board, is published on the website of the Company.

4.4. Conflicts of Interest & Related Party Transactions Policy

The MCB Group Ltd has adopted a Conflict of Interest & Related Party Transactions Policy which is applicable to all its subsidiaries. The objective of this policy is to define the scope of conflicts of interest and related party transactions and to set out prudent rules and limits for granting credit to related parties.

This policy, which has been approved by the Board, is published on the website of the Company.

4.5. Related Party Transactions

For Related Party Transactions, please refer to note 32 of the financial statements.

4.6. Information, Information Technology and Information Security Governance Policy

The Board oversees information governance within the organisation. The Information, Information Technology and Information Security Governance Policy of the MCB Group applies to all the subsidiaries of the Group. All policies relating to information security are made accessible to all the employees of the Group without restriction via its intranet system. Appropriate governance arrangements are in place whereby the IT function and function responsible for monitoring adherence to Information Risk and IT are kept separate. MCB Group continues to invest in technology to enhance its operational resilience across the Group with significant investments monitored by the Board.
This Information, Information Technology and Information Security Governance Policy, which has been approved by the Board, is published on the website of the Company.

4.7. Board Evaluation

The Board acknowledges the need to regularly review its performance and effectiveness. A Board evaluation exercise was carried out for the financial year 2025/2026 by means of a questionnaire filled in by each Director and covering the following areas:

- Structure of the Board
- Board Efficiency and Effectiveness
- Strategy and Performance
- Risk Management and Governance
- Audit Committee evaluation
- Board Members self-evaluation
- Chairperson's evaluation by Board Members

The assessment results indicate that the company's governance practices are well established and that the Board and its Committee continue to operate effectively. Some opportunities for further improvement were identified and no significant concerns were noted.

4.8. Statement of Remuneration Philosophy

The CGSC of MCB Group Limited is responsible for the setting up and developing of the Group's general policy concerning the remuneration of Directors. MCBG lays significant emphasis on appointing the right people with the right skills and behaviors whilst rewarding them adequately, in line with market practices.

The Company applies the same remuneration philosophy as MCBG which consists of:

- a monthly basic retainer for membership of the Board and/or Committee
- an attendance fee per sitting of the Board and/or Committee

- a fee for attending the Annual Meeting of Shareholders
- higher remuneration of the Chairperson of the Board, having wider responsibilities;
- ineligibility to share option or bonus to non-executive or independent Directors.

4.9 Directors' Remuneration

The following table highlights the remuneration and benefits received by the directors during FY25/26:

Name of Directors	From the Company Rs
Jean-Pierre MONTOCCHIO	382,719
Jean-Philippe COULIER	294,024
Marivonne OXENHAM	-
Margaret WONG PING LUN	307,363
Navin HOOLOOMANN	307,363
Total Non-Executive	**1,291,469**
Frédéric TYACK	11,889,295
Total (Non-Executive and Executive)	**13,180,764**

Non-Executive Directors having an executive role within the entities of MCB Group are not remunerated.

Non-Executive Directors have not received remuneration in the form of share options or bonuses associated with organisational performance.

The Directors did not receive any remuneration from the subsidiary.

Remuneration of the Directors is reviewed on an annual basis and the Board is of the opinion that the level and form of remuneration are adequate.

The Company's remuneration policy has been designed to reward the long-term performance objective while attracting and retaining talent.

Remuneration for the executive director comprises a basic salary and short-term benefits, which reflect his responsibilities and is commensurate with his experience, as well as a variable element in the form of performance bonuses.

4.10 Share Option Plan

No such scheme currently exists within the Company.

5. RISK GOVERNANCE AND INTERNAL CONTROL

5.1. Risk Management

The Board of Directors is ultimately responsible for risk management, the organisation's systems of internal control, procedures in place within the organisation and for the definition of the overall strategy for risk tolerance. The Company's policy on risk management encompasses all significant business risks including physical, operational, business continuity, financial, compliance and reputational which could influence the achievement of the Company's objectives.

The risk management mechanisms in place include:

- a system for the ongoing identification and assessment of risk;
- development of strategies in respect of risk mitigation and definition of acceptable and non-acceptable levels of risk;
- reviewing the effectiveness of the system of internal control; and
  processes to reduce or mitigate identified risks and contain them within the levels of tolerance defined by the Board.

The Board and Audit Committee monitor the effectiveness of risk management and internal control through management reporting as well as reports from internal and external audits carried out during the year.

The Company's subsidiary, MCB Leasing Limited has its own:

- Risk Management Committee, a Board sub-committee comprising 3 independent Directors and the Managing Director;

- Audit Committee comprising 3 independent Directors.

Any material issues arising out of these committees are reported to the Board of MCB Leasing Limited and subsequently to the Board of Fincorp Investment Limited.

The key risks for the Company are legal, regulatory, operational, reputational, performance and financial risks and the Board is directly responsible for the design, implementation and monitoring of all risks, including compliance with policies and procedures of the Company.

- Legal risk is managed by the Board, taking advice from the Company's legal advisor where appropriate. The Board also takes out appropriate insurance cover.

- Regulatory risk is managed by the Board and involves the setting out of proper processes and procedures in order to comply with all relevant legislations in force to safeguard the assets of the Company.

- Operational risk is managed by the Board and involves the identification of proper operational and administrative procedures to mitigate the risk of losses through errors or omissions.

- Reputational and performance risks are also managed by the Board.

- Financial risks relate to:
    - equity investment risks comprising of the risks of gains or losses arising from adverse changes in the fair value of the investments of the Company. The Board regularly reviews the financial performance and share performance of the Company's underlying investments; and
    - credit, foreign currency, interest rate and liquidity which are further described in note 5 of the financial statements.

5.2. Internal Control

The Board of Directors has delegated the responsibility to ensure the effectiveness of the internal control systems to the Audit Committee of the Company which has set adequate policies to provide reasonable assurance that risks are identified and managed appropriately. Any significant issue identified is escalated to the Board for consideration.

5.3. Integration of internal control and risk management

The system of internal control, which is embedded in all key operations, provides reasonable rather than absolute assurance that the Company's business objectives will be achieved within the risk tolerance levels defined by the Board. The effectiveness of the internal control systems (including financial, operational, compliance and risk management) is reviewed by the Audit Committee and the review covers all internal control systems.

6. REPORTING WITH INTEGRITY

The Directors are responsible for preparing the Annual Report and the Financial Statements in accordance with applicable laws and regulations.

The Directors are also responsible for ensuring that the accounts present a fair statement of the affairs of the Company and have been prepared in compliance with IFRS Accounting Standards and the requirements of the Mauritius Companies Act 2001 and Financial Reporting Act 2004.

Additional information regarding the Company's financial and performance outlook is set out in the Report of the Directors.

6.1. Material Clauses of the Constitution

There are no clauses of the constitution deemed material enough for special disclosure.

6.2. Company Structure and Common Directors

Fincorp Investment Limited is a subsidiary of MCB Group Limited, which has a 57.73% stake in the Company. There are no common directors of Fincorp Investment Limited and MCB Group Limited.

6.3. Directors' interest and dealings in shares

With regard to Directors' dealings in the shares of the Company, the Directors confirm that they have followed the absolute prohibition principles and notification requirements of the model code on securities transactions by Directors as detailed in Appendix 6 of the Mauritius Stock Exchange Listing Rules.

The following table shows the interests of the Directors in the shares of the Company as at 30th June 2026.

	Number of shares in Fincorp	
DIRECTORS	**Direct**	**Indirect**
Jean-Pierre Montocchio	-	1,481
Navin Hooloomann	-	-
Jean-Philippe Coulier	-	972
Marivonne Oxenham	-	-
Frédéric Tyack	-	-
Margaret Wong Ping Lun	-	10,000

6.4. Directors of the Subsidiary

MCB Leasing Limited

Simon Pierre REY (Chairperson)
Mulk Raj GUNGAH (Managing Director)
Johanne HAGUE
Cathie HANNELAS
Yan Chong Ng Cheng HIN
Pierre Dominic PROVENCAL

The Directors of MCB Leasing Limited do not hold any interest in the subsidiary.

6.5. Directors' service contracts

There are no service contracts between the Company and its Directors.

6.6. Shareholder agreement affecting the governance of the Company by the Board

There is currently no such agreement.

6.7. Contract of significance

The Directors have no contract of significance with the Company or its subsidiary.

6.8. Third party management agreement

At the subsidiary level, there are service level agreements for the provision of technical assistance and other services between sister companies within the MCB Group.

6.9. Political Donations

No political donation was made by the Company and its subsidiary.

6.10. Charitable Donations

No charitable donation was made by the Company and its subsidiary during the year.

6.11. Corporate Social Responsibility

Total contributions with respect to Corporate Social Responsibility ("CSR") made during the year amounted to Rs 63,032 and were transferred to the MCB Forward Foundation, the entity established within the MCB Group for CSR purposes.

Contributions applicable for the year for its subsidiary MCB Leasing Limited were nil as the company had reported losses carried forward.

6.12. Health and environment safety

The Company and its subsidiary have applied social, safety, health and environmental policies and practices of the MCB Group that in all material respects comply with existing legislative and regulatory frameworks.

6.13. Documents available on the website

The Board of Directors is pleased to announce that the following documents which have been approved by the Board can be viewed on the website of the Company:

- The Annual Report of the Company including the financial statements
- The Constitution
- The Board Charter
- The Audit Committee Charter
- The Statement of main accountabilities
- The Position Statements
- The Appointment process of Non-Executive Directors
- The terms and conditions of appointment of Non-Executive Directors
- The Conflicts of Interest & Related Party Transactions Policy
- The Code of Ethics
- The Whistleblowing Policy
- The Information, Information Technology and Information Security Governance Policy

7. AUDIT

7.1. Internal Audit

The Board has outsourced the function to the Internal Audit Business Unit of The Mauritius Commercial Bank Limited (IA), through a Service Level Agreement. The Head of IA is independent of the Executive Management of the Company and reports to the Audit Committee of the Company as well as to the Audit Committee of the Group.

IA ensures that the quality of internal audit services provided to Fincorp is aligned with recognised best practices. It leverages on a systematic and disciplined approach, notably through the use of well-focused audit work programs and computer aided audit techniques to evaluate the effectiveness of the internal control systems of the Company. The Institute of Internal Auditors requires each internal audit function to have an external quality assessment conducted at least once every five years.

Internal Audit has unrestricted access to the Chairperson of the Audit Committee, the Company's records, and staff in carrying out the audit.

The internal audit exercise carried out in FY 2025, covering the period from 01 July 2023 to 31 January 2025, focused on the following areas:

- Governance: Corporate Governance Structure - Board and Audit Committee and Review of applicable laws and regulations.
- Accounting & financial reporting: Investments, Preparation of management accounts and SEM Reporting requirements and statutory returns.
- Others: Investee Governance and Bondholders' representative mandate.

There are no restrictions placed on the internal auditors in conducting their audit exercises.

7.2. External Auditor

With a view to ensuring the overall adequacy of the Group's internal control framework, the Audit Committee evaluates the independence, effectiveness and eligibility of the external auditor on an ongoing basis before making a recommendation to the Board on their appointment and retention. As regards the timeframe, the duration of the audit assignment is for a period of one year with the possibility of reappointing the selected firm annually, subject to approval at the Annual Meeting of Shareholders of Fincorp Ltd. In this respect, the appointment of Deloitte as external auditor was approved at the Annual Meeting of Shareholders, held in November 2025. Deloitte was first appointed as external auditor of the Company at the Annual Meeting of Shareholders in December 2019. A formal tender process was initiated during the current financial year at MCB Group Ltd level, for the rotation of the external auditors, following which the Board recommended

the nomination of BDO & Co as external auditor for the financial year ending 30 June 2027 for Fincorp Ltd. Their nomination will be submitted for approval by the shareholders of Fincorp Ltd at the next Annual meeting in December 2026.

The Audit Committee of the Company also reviews the audit plan and meets the External Auditor to discuss the accounting principles applied to the Company, the scope and timeline of the audit, risks that have been identified and tested as well as to review the Financial Statements of the Company on a yearly basis.

The Audit Committee meets external auditors without the presence of management as and when required and facilitates two-way communication between Management and external auditors to ensure feedback is provided and all matters are addressed, thus ensuring the effective performance of external auditors.

The Audit Committee of the Company evaluates the performance of the External Auditor against set criteria and reviews the integrity, independence and objectivity of the External Auditor by:

- Confirming that the External Auditor is independent from the Company
- Considering whether the relationships that may exist between the Company and the External Auditor impair the External Auditor's judgement.

Although the External Auditor may provide non-audit services to the Company, the objectivity and independence of the External Auditor is safeguarded through restrictions on the provisions of these services such as:

- where the External Auditor may be required to audit its own work, or
- where the External Auditor participates in activities that should normally be undertaken by the Company.

7.3 Deloitte

The fees paid to the auditors for audit and other services were:

	2026		2025	
Deloitte	**Audit Rs'000**	**Other services Rs'000**	Audit Rs'000	Other services Rs'000
Fincorp Investment Limited	**320**	-	347	-
MCB Leasing Limited	**1,471**	**195**	1,401	186

Fees for other services incurred by MCB Leasing Limited include assurance engagements performed for dividend declaration and AML/CFT review.

The above fees exclude VAT.

8. RELATIONS WITH SHAREHOLDERS AND OTHER KEY STAKEHOLDERS

8.1. Shareholding profile

Ownership of ordinary share capital by size of shareholding as at 30 June 2026 is given in the table below.

Share Ownership Spread, Shareholder Category Profile and Major Shareholders as at 30 June 2026

Spread	Number of shareholders	Number of shares held	% Holding
1 - 500 shares	1,065	209,346	0.2025%
501 - 1,000 shares	252	199,074	0.1926%
1,001 - 5,000 shares	661	1,656,147	1.6024%
5,001 - 10,000 shares	202	1,528,068	1.4785%
10,001 - 50,000 shares	290	6,319,254	6.1141%
50,001 - 100,000 shares	46	3,185,613	3.0822%

8.2. Shareholders' rights

The Board is committed to promoting open and transparent communication in relation to its engagement with shareholders with a view to building trust and maintaining a relationship with them. The Company is committed to providing shareholders with adequate, timely and sufficient information pertaining to the Company's business.

The Shareholders are entitled to receive the Annual Report of the Company and the notice of Annual Meeting within six months of the end of the financial year and at least 21 days before the Annual Meeting in accordance with the Companies Act 2001.

During the meeting of shareholders, the Shareholders are encouraged to communicate their views and to discuss the activities and performance of the Company with the Board.

8.3. Dividend Policy

The Company aims to supply its shareholders with ongoing returns in the form of stable dividends. A final dividend of Rs. 0.70 per share for financial year 2024/2025 was paid in December 2025.

8.4. Share price information

The Company's share price started the year at Rs 17.00. It closed at Rs 15.00 on 30 June 2026.

8.5. Calendar of events

September 2026	Declaration of dividends
November 2026	Release of quarterly results to 30 September 2026
December 2026	Annual Meeting of shareholders
December 2026	Payment of dividends
February 2027	Release of half yearly results to 31 December 2026
May 2027	Release of results for the 9 months to 31 March 2027
September 2027	Release of full year results to 30 June 2027

8.6. Stakeholders' relations and communication

The Board aims to properly understand the information needs of all stakeholders and places great importance on an open and meaningful dialogue including outlook and performance with all those involved with the Company. The main stakeholders of the Company are its shareholders, the regulatory authorities and the population at large. The Company's website is used to provide relevant information. Open lines of communication are maintained to ensure transparency and optimal disclosure. All Board members are requested to attend the Annual Meeting, to which shareholders are invited. Shareholders are encouraged to ask questions, which are addressed at the Annual Meeting, and to submit suggestions for consideration by the Board and management.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

Company law requires the Directors to prepare Financial Statements for each financial year, which give a true and fair view of the state of affairs of Fincorp Investment Limited ("the Company") and its subsidiary (collectively "the Group").

In preparing those financial statements, the Directors are required to:

- ensure that adequate accounting records and an effective system of internal controls and risk management have been maintained;
- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been adhered to, subject to any material departures disclosed, explained and quantified in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and the Company will continue in business;
- keep proper accounting records which disclose with reasonable accuracy, at any time, the financial position of the Group and the Company while ensuring that the financial statements fairly present the state of affairs of the Group and the Company, as at the financial year end, and the results of their operations and cash flows for that period; and
- ensure that the Financial Statements have been prepared in accordance with and comply with IFRS Accounting Standards and the requirements of the Mauritius Companies Act 2001 and Financial Reporting Act 2004.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are also responsible for safeguarding the assets of the Group and the Company and, hence, for taking reasonable steps for the prevention and detection of fraud and other irregularities. Other main responsibilities of the Directors include the assessment of the Management's performance relative to corporate objectives; overseeing the implementation and upholding of the Code of Corporate Governance; and ensuring timely and comprehensive communication to all stakeholders on events significant to the Group and the Company.

Corporate Governance Report

The Directors report that:

- adequate accounting records and an effective system of internal controls and risk management have been maintained;
- the Financial Statements fairly present the state of affairs of the Group and the Company, as at the financial year end, and the results of their operations and cash flows for that period;
- appropriate accounting policies supported by reasonable and prudent judgements and estimates have been consistently used;
- IFRS Accounting Standards and the requirements of the Mauritius Companies Act 2001 and the Financial Reporting Act 2004 have been adhered to; and
- the financial statements have been prepared on the going concern basis.

Report of the Directors

MACRO-ECONOMIC ENVIRONMENT

During the year in review, the global economic environment was characterised by heightened geopolitical tensions following the escalation of the Middle East war. In Mauritius, economic growth was resilient, although it moderated over the year as the fallout from the Middle East conflict weighed on tourist arrivals from specific European markets and on external demand more broadly. Inflation firmed during the financial year, reflecting elevated global oil prices alongside higher freight and logistics costs.

Against this backdrop, the Bank of Mauritius raised the Key Rate by 25 basis points to 4.75% in May 2026 to anchor medium-term inflation expectations and subsequently kept it unchanged in August 2026. The foreign exchange market remained under pressure, reflecting elevated external imbalances and a high import bill. Money market yields continued to be impacted by high liquidity, notwithstanding a relative decline in the latter since the beginning of 2026. The authorities pursued fiscal consolidation, aimed at narrowing the budget deficit and stabilising the debt trajectory. In its latest periodic update, Moody's Ratings acknowledged the early progress on the fiscal front while underlining execution risks with the country's rating remaining at Baa3 with a negative outlook.

REVIEW OF GROUP PERFORMANCE

(a) MCB Leasing Limited ("MCBL")

As part of a year of sustained growth, MCBL's lease portfolio expanded by 24.5% across both its finance and operating lease segments, reaching Rs 5,431 million as at 30 June 2026 (2025: Rs 4,364 million). To support the higher level of disbursements during the year, the deposit base increased by 15.9% to Rs 6,812 million (2025: Rs 5,875 million).

Reflecting the strong performance of the finance lease portfolio, net interest income grew by 21.7% year on year to Rs 125 million (2025: Rs 103 million). This growth was partly offset by higher interest expense resulting from an increase in both the average volume of fixed deposits and the cost of funds, which rose from 3.7% to 4.1%.

Consequently, total operating income rose by 16.7% to Rs 564 million (2025: Rs 484 million) driven by the expansion of the operating lease portfolio and the resulting growth in processing fee income.

Operating expenses increased by 14.4% year on year, mainly reflecting continued investments in human capital, information technology and intra-group services, as well as higher depreciation charges associated with the expanding operating lease portfolio.

Overall, despite additional impairment charges of Rs 10 million (2025: Rs 8 million) recognised on the growing performing lease book and higher income tax expenses of Rs 25 million (2025: Rs 22 million), the Company delivered a net profit after tax of Rs 73 million for the year ended 30 June 2026, representing an increase of 31.6% over the prior year (2025: Rs 55 million).

(b) Associated Companies

Promotion and Development Limited ("PAD"), in which Fincorp has a 44.07% stake, is an investment company with strategic assets that include:

• A 100% stake in Caudan Development Ltd ("Caudan"), a company which owns and manages a large waterfront property in Port Louis,

• A non-controlling interest of 35.1% in Medine Ltd ("Medine"), a sugar-based entity with substantial real estate interests *and*

• A non-controlling interest in MFD (30.55%) and Eudcos (26.57%)

The contribution of the associated companies to Fincorp's results stood at Rs 380 million for the financial year ended 30 June 2026 as compared to a loss of Rs 251 million last year. This was mainly driven by:

The yielding assets of Caudan Development Ltd delivered a strong performance during the year, supported by rental growth, lower vacancy levels and ongoing cost optimisation initiatives coupled with revaluation gain on its investment properties. As a result, the Group's share of profit from Caudan amounted to Rs 50 million, compared to a loss of Rs 689 million in 2025. The prior year loss was primarily attributable to a fair value loss of Rs 676 million recognised on investment property, reflecting the impact of climate-related risks.

Medine delivered a significantly improved performance compared to the previous year, with its contribution to PAD's profit increasing to Rs 659 million from Rs 49 million in 2025. The improved performance in 2026 was primarily driven by strategic bulk and parceling land sales under the Pierrefonds Morcellement project. These results reflect the successful execution of key property transactions and the continued monetisation of Medine's land bank.

(c) Other investments

The other two investments of Fincorp, namely MFD and Le Refuge du Pêcheur, continued to perform satisfactorily during the year, generating stable dividend income. However, after accounting for head office expenses and finance costs, the company incurred a loss of Rs 21 million, compared to a loss of Rs 7 million in 2025. The higher loss was mainly attributable to the full-year impact of the remuneration and related costs associated with the appointment of a Chief Executive Officer.

Overall, Fincorp Investment Limited posted a consolidated profit after tax amounting to Rs 432 million for the financial year ended 30 June 2026, compared to a loss of Rs 202 million last year.

Report of the Directors

INVESTMENT PORTFOLIO

The investment portfolio decreased marginally by Rs 55 million (2%) during FY26 to Rs 2,500 million. This was mainly attributable to a fall in the market value of Promotion and Development Ltd of Rs 119 million and the disposal of shares in CCARE (Mauritius) Ltd for Rs 32 million. This decline was partly offset by higher valuations in Le Refuge du Pêcheur Ltd and MFD Group Ltd, which increased by Rs 81 million and Rs 15 million respectively. Consequently, the portfolio became slightly more diversified, with Other Investments representing 29.3% of total investments compared to 26.2% in the prior year.

At Group level, Fincorp's net assets per share amounted to Rs 82.10 at 30 June 2026, an increase of 9.6% from last year's value of Rs 74.91. Fincorp's share continues to trade at a substantial discount to net asset value of 81.7% (2025: 77.4%) based on the market value of Rs 15.00 on the Stock Exchange of Mauritius as at 30 June 2026 (2025: Rs 16.95).

OUTLOOK

Although economic growth in Mauritius is expected to moderate amid weaker external demand and a slowdown in the construction and property sectors, the continued execution of key strategic initiatives across the Group's portfolio should help mitigate these challenges. Leveraging its diversified business model, Fincorp remains focused on enhancing operational efficiency, and unlocking value from its investments, thereby supporting a more resilient and balanced performance in the years ahead.

Independent auditor's report to the Shareholders of Fincorp Investment Limited

Report on the audit of the consolidated and separate financial statements

Opinion

We have audited the consolidated and separate financial statements of **Fincorp Investment Limited** (the "Company" and the "Public Interest Entity") and its subsidiary (the "Group") set out on pages 33 to 87, which comprise the consolidated and separate statements of financial position as at 30 June 2026, the consolidated and separate statements of profit or loss, the consolidated and separate statements of comprehensive income, the consolidated and separate statements of changes in equity and the consolidated and separate statements of cash flows for the year then ended, and notes to the consolidated and separate financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated and separate financial statements give a true and fair view of the financial position of the Group and Company as at 30 June 2026, and of their financial performance and cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards") and comply with the requirements of the Mauritius Companies Act 2001 and the Financial Reporting Act 2004.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those Standards are further described in the *Auditor's responsibilities for the audit of the consolidated and separate financial statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (the "IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters described below relate to the consolidated financial statements and no key audit matter was identified on the separate financial statements.

Key audit matter	How our audit addressed the key audit matter
Valuation of Investment in Associate	
The Group holds a material investment in an associate, which is accounted for using the equity method in accordance with IAS 28 *Investments in Associates and Joint Ventures*. The associate holds a material investment in a sub-associate, whose financial performance and position significantly impact the Group's share of results. Both the associate and sub-associate own substantial parcels of land and investment property, the fair values of which materially affect their net assets and results. The valuation of these assets involves significant judgements and estimates, including the use of external valuation experts and market-based assumptions.	Our audit procedures included, among others: • Assessment of the Group's accounting treatment of the investment in the associate. • Evaluation of the competence and independence of the component auditor responsible for auditing the associate and its sub-associate, in accordance with ISA 600 (Revised).

Key audit matters (Cont'd)

Key audit matter	How our audit addressed the key audit matter
Valuation of Investment in Associate (cont'd)	
The valuation of investment in associate has thus been considered as a key audit matter.	• Review of the component auditor's work, with a focus on the valuation of land and investment property held by both the associate and sub-associate, including the appropriateness of valuation methodologies and critical accounting estimates and key assumptions (e.g. market comparables and discount rates). • Evaluation of the adequacy of disclosures in the Group's financial statements relating to the investment in the associate.

Other information

The directors are responsible for the other information. The other information comprises the corporate governance report, the statement of compliance, the report of the directors, the company secretary's certificate and the five-year financial summary, but, does not include the consolidated and separate financial statements and our auditor's report thereon.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of directors for the consolidated and separate financial statements

The directors are responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with IFRS Accounting Standards, and in compliance with the requirements of the Mauritius Companies Act 2001 and the Financial Reporting Act 2004 and they are also responsible for such internal control as the directors determine is necessary to enable the preparation of the consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group and/or the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for overseeing the Group's and the Company's financial reporting process.

Auditor's responsibilities for the audit of the consolidated and separate financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

Deloitte.

7th-8th floors, Standard Chartered Tower
19-21 Bank Street
Cybercity
Ebène 72201
Mauritius

Auditor's responsibilities for the audit of the consolidated and separate financial statements (cont'd)

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and/or the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group as a basis for forming an opinion on the Group's consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe those matters in our auditor's report unless laws or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Independent auditor's report to the Shareholders of Fincorp Investment Limited (Cont'd)

Report on other legal and regulatory requirements

Mauritius Companies Act 2001

In accordance with the requirements of the Mauritius Companies Act 2001, we report as follows:

- we have no relationship with, or interest in, the Company and its subsidiary other than in our capacity as auditor;
- we have obtained all information and explanations that we have required; and
- in our opinion, proper accounting records have been kept by the Company as far as appears from our examination of those records.

Financial Reporting Act 2004

Our responsibility under the Financial Reporting Act 2004 is to report on the compliance with the Code of Corporate Governance (the "Code) disclosed in the annual report and assess the explanations given for non-compliance with any requirement of the Code. From our assessment of the disclosures made on corporate governance in the annual report, the Public Interest Entity has, pursuant to section 75 of the Financial Reporting Act 2004, complied with the requirements of the Code.

Use of this report

This report is made solely to the Company's shareholders, as a body, in accordance with section 205 of the Mauritius Companies Act 2001. Our audit work has been undertaken so that we might state to the Company's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

1. INCORPORATION AND ACTIVITIES

Fincorp Investment Limited ("the Company") is a public company incorporated in Mauritius and listed on the Stock Exchange of Mauritius. Its registered office is situated at 9-15, Sir William Newton Street, Port Louis, Mauritius.

The main activities of the Company are to hold investments in priority in the financial services sector, whilst the main activities of its subsidiary, MCB Leasing Limited ("the Subsidiary"), are to provide both finance and operating leases for equipment and motor vehicles.

The Subsidiary holds a leasing licence from the Financial Services Commission and a deposit-taking licence from the Bank of Mauritius.

These financial statements will be submitted for consideration and approval at the forthcoming Annual Meeting of shareholders of the Company.

2. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRSs") ISSUED BY IASB

New and revised IFRS Accounting Standards that are effective for 30 June 2026

The following relevant revised IFRS Accounting Standards have been applied in these financial statements. Their application have not had any significant impact on the amounts reported for the current and prior periods but may affect the accounting treatment for future transactions or arrangements.

• IAS 21: The Effects of Changes in Foreign Exchange Rates - Lack of exchangeability

New and amended IFRS Accounting Standards in issue but not yet effective

At the date of authorisation of these financial statements, the following relevant IFRS Accounting Standards were in issue but effective on annual periods beginning on or after the respective dates as indicated:

• IAS 21: The Effects of Changes in Foreign Exchange Rates - Amendments regarding translations to a hyperinflationa presentation currency (effective 1 January 2027)
• IFRS 7: Financial Instruments: Disclosures - Amendments regarding the classification and measurement of financi instruments (effective 01 January 2026)
• IFRS 9: Financial Instruments - Amendments regarding the classification and measurement of financial instrumen (effective 01 January 2026)

The directors anticipate that the above IFRS Accounting Standards will be applied on their effective dates in future periods. The directors have not yet assessed the potential impact of the application of these amendments, other than the one stated below:

•IFRS 18: Presentation and Disclosures in Financial Statements (effective 01 January 2027)

The International Accounting Standards Board ("IASB") issued IFRS 18 Presentation and Disclosure in Financial Statements in April 2024. IFRS 18 replaces IAS 1 Presentation of Financial Statements and is effective for annual reporting periods beginning on or after 1 January 2027, with earlier application permitted. The Group and Company has

2. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRSs") ISSUED BY IASB (CONTINUED)

New and amended IFRS Accounting Standards in issue but not yet effective

IFRS 18: Presentation and Disclosures in Financial Statements (effective 01 January 2027) (continued)

The International Accounting Standards Board ("IASB") issued IFRS 18 Presentation and Disclosure in Financial Statements in April 2024. IFRS 18 replaces IAS 1 Presentation of Financial Statements and is effective for annual reporting periods beginning on or after 1 January 2027, with earlier application permitted. The Group and Company have not early adopted IFRS 18.

IFRS 18 introduces new requirements for the presentation and disclosure of information in financial statements, including:

- mandatory classification of income and expenses into operating, investing and financing categories within the statement of profit or loss;
- presentation of new defined subtotals, including Operating Profit and Profit Before Financing and Income Taxes;
- enhanced principles relating to the aggregation and disaggregation of information in the primary financial statements and notes; and
- disclosures relating to management-defined performance measures ("MPMs"), including reconciliations to IFRS-defined totals or subtotals.

As the principal activities of the Company comprise finance leasing, operating leasing and other financing activities, management expects the sector-specific requirements applicable to entities whose main business activity is providing financing to customers to be relevant in determining the classification of certain finance income, finance expenses and other leasing-related income and expenses within the statement of profit or loss.

The adoption of IFRS 18 is not expected to affect the recognition, measurement or carrying amounts of the Company's assets, liabilities, income or expenses. However, it is expected to result in changes to the presentation of the statement of profit or loss, disclosures in the notes to the financial statements and certain key performance indicators currently reported by management.

The Group and Company is currently assessing the detailed impact of IFRS 18, including:

- the classification of income and expenses arising from financing and leasing activities;
- the presentation of profit or loss subtotals required by IFRS 18;
- the identification of any management-defined performance measures subject to additional disclosure requirements; and
- system, reporting and comparative information requirements necessary to facilitate retrospective application.

At the date of authorisation of these financial statements, management has not yet completed its detailed impact assessment and is therefore unable to quantify the full effect of adopting IFRS 18 on the Group's future financial statement presentation and disclosures.

Amendments to IFRS 9 and IFRS 7 – Classification and Measurement of Financial Instruments

Following the post-implementation review of the classification and measurement requirements, IFRS 9 includes guidance on the classification of financial assets, including those with contingent features. Additional disclosures in terms of IFRS 7 will also need to be provided on financial assets and financial liabilities that have certain contingent features. The amendments are effective for annual reporting periods beginning on or after 1 January 2026, with earlier application permitted.

Settlement of financial liabilities by electronic payments – IFRS 9 & IFRS 7

The amendments clarify when a financial asset or financial liability is recognised and derecognised and provide an exception for certain financial liabilities settled using an electronic payment system. The exception allows entities to derecognise their financial liabilities before the settlement date when it uses an electronic payment system that meets specific criteria. The amendments are effective for annual reporting periods beginning on or after 1 January 2026, with earlier application permitted.

Equity instruments designated at fair value through other comprehensive income – IFRS 7

The amendments require additional disclosures for investments in equity instruments that are measured at fair value with gains or losses presented in other comprehensive income (FVOCI). The amendments are effective for annual reporting periods beginning on or after 1 January 2026, with earlier application permitted.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policy information adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

The Group's and Company's financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the IASB and in compliance with the requirements of the Mauritius Companies Act 2001 and the Financial Reporting Act 2004.

The financial statements have been prepared on a historical cost basis, except where otherwise stated. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The financial statements include the consolidated financial statements of the parent company and its subsidiary company ("the Group") and the separate financial statements of the parent company ("the Company"). The financial statements are presented in Mauritian Rupees, which is the Group's and the Company's presentation and functional currency, and all values are rounded to the nearest thousand (Rs 000), except when otherwise indicated.

Where necessary, comparative figures have been amended to conform with change in presentation in the current year.

Going concern

The Board at the time of approving the financial statements has a reasonable expectation that the Group and the Company have adequate resources to continue in operational existence for the foreseeable future. The Directors are not aware of any uncertainties that may cast significant doubt upon the Company's and the Group's ability to continue as a going concern. The financial statements are thus prepared on a going concern basis.

(b) Basis of consolidation

Investment in subsidiary

Separate financial statements of the Company

In the separate financial statements of the Company, investment in subsidiary company is carried at cost. The carrying amount is reduced to recognise any impairment in the value of individual investments.

Consolidated financial statements

Subsidiaries are all entities (including special purpose entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has the rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interests in the acquiree either at fair value or at the non-controlling interests' proportionate share of the acquiree's net assets.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(b) Basis of consolidation (Continued)

Investment in subsidiary (Continued)

The excess of the consideration transferred, the amount of any non-controlling interests in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree (if any) over the fair value of the Group's share of identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in profit or loss as a bargain purchase gain.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Transactions and non-controlling interests

The Group treats transactions with non-controlling interests as transactions with equity owners of the Group. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

(c) Investments in associates

Separate financial statements of the Company

In the separate financial statements of the Company, investments in associated companies are carried at fair value through other comprehensive income.

Consolidated financial statements

An associate is an entity over which the Group has significant influence but no control, or joint control, generally accompanying a shareholding between 20% and 50% of voting rights.

Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Investments in associates are accounted for using the equity method of accounting except when classified as held-for-sale. On acquisition of the investment in the associates, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of IAS 36 impairment of Assets are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment is tested for impairment, in accordance with IAS 36 as a single asset by comparing the recoverable amount (higher of value in use less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(c) Investments in associates (Continued)

Consolidated financial statements (Continued)

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate. When the Group retains an interest in the former associate and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with IFRS 9.

The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities.

Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the associate or joint venture is disposed of.

When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

Unrealised profits and losses are eliminated to the extent of the Group's interest in the associate. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. The Group profit or loss reflects the Group's share of post-tax profits of associates.

Where necessary, appropriate adjustments are made to the financial statements of associates to bring the accounting policies used in line with those adopted by the Group.

(d) Foreign currency translation

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

(e) Financial instruments

Financial assets and financial liabilities are recognised when the Group and Company become a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(e) Financial instruments (Continued)

At initial recognition, the Group and Company measure a financial asset or financial liability at its fair value plus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issue. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit or loss.

If the transaction price differs from fair value at initial recognition, the Group and Company will account for such difference as follows:

- if fair value is evidenced by a quoted price in an active market for an identical asset or liability or based on a valuation technique that uses only data from observable markets, then the difference is recognised in profit or loss on initial recognition (i.e. day 1 profit or loss);

- in all other cases, the fair value will be adjusted to bring it in line with the transaction price (i.e. day 1 profit or loss will be deferred by including it in the initial carrying amount of the asset or liability).

After initial recognition, the deferred gain or loss will be released to profit or loss on a rational basis, only to the extent that it arises from a change in a factor (including time) that market participants would take into account when pricing the asset or liability.

(f) Financial assets

The Group and Company have the option to classify its financial assets in the following measurement categories:

- Fair value through profit or loss ("FVPL");
- Fair value through other comprehensive income ("FVOCI") or
- Amortised cost.

A description of each of the measurement category is given below:

(i) Amortised cost

Under the amortised cost model, assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest ('SPPI'), and that are not designated at FVPL, are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

The amortised cost is the amount at which the financial asset or financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating the interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset (i.e. its amortised cost before any impairment allowance) or to the amortised cost of a financial liability. The calculation does not consider credit losses and includes transaction costs, premiums or discounts and fees and points paid or received that are integral to the effective interest rate.

When the Group and Company revise the estimates of future cash flows, the carrying amount of the respective financial assets is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognised in profit or loss.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(f) Financial assets (Continued)

(ii) FVOCI

Financial assets held for a business model that is achieved by both collecting contractual cash flows and selling and that contain contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest are measured at FVOCI. They are recognised on the trade date when the Group and Company enter into contractual arrangements to purchase and are normally derecognised when they are either sold or redeemed. They are subsequently remeasured at fair value and changes therein (except for those relating to impairment, interest income and foreign currency exchange gains and losses) are recognised in other comprehensive income until the assets are sold. Upon disposal, the cumulative gains or losses in other comprehensive income are recognised in the statement of profit or loss and other comprehensive income as 'Other operating income'.

(iii) FVPL

Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL and is not part of a hedging relationship is recognised in profit or loss and presented within 'Other operating income' in the period in which it arises.

In order to determine the classification and subsequent measurement of its financial assets. IFRS 9 introduces the concept of SPPI and business model.

Business model

An assessment of business models for managing financial assets is fundamental to the classification of a financial asset. The Group and Company determine the business models at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Group's and Company's business models do not depend on management's intentions for an individual instrument, therefore the business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Group and Company have more than one business model for managing its financial instruments which reflect how the Group and Company manage its financial assets in order to generate cash flows. The Group's and Company's business models determine whether cash flows will result from collecting contractual cash flows, selling financial assets or both.

The Group and Company consider all relevant information available when making the business model assessment. However, this assessment is not performed on the basis of scenarios that the Group and Company do not reasonably expect to occur, such as so-called 'worst case' or 'stress case' scenarios.

The Group and Company take into account all relevant evidence available such as:

- how the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way in which those risks are managed;
- how managers of the business are compensated (e.g. whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected); and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's and Company's stated objective for managing the financial assets is achieved and how cash flows are realised.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(f) Financial assets (Continued)

Business model (Continued)

At initial recognition of a financial asset, the Group and Company determine whether newly recognised financial assets are part of an existing business model or whether they reflect the commencement of a new business model. The Group and Company reasses their business models each reporting period to determine whether the business models have changed since the preceding period. For the current and prior reporting period the Group and Company have not identified a change in its business models.

SPPI

Where the business model is to hold assets to collect contractual cash flows, or to collect contractual cash flows and sell, the Group assesses whether the financial instruments' cash flows, represent solely payments of principal and interest (the 'SPPI test').

In making this assessment, the Group and Company consider whether the contractual cash flows are consistent with a basic lending arrangement, i.e. interest includes only consideration for the time value of money, credit risk and other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at FVPL.

As per the Group's and Company's own assessment for the classification of financial assets under IFRS 9 under the SPPI test, the classification of the financial assets has been determined as follows:

Financial instrument	SPPI met	Business model	Classification
Cash and cash equivalents	Yes	Hold to collect	At amortised cost
Deposits with financial institutions	Yes	Hold to collect	At amortised cost
Investment securities –T-Bills and Government bonds	Yes	Hold to collect	At amortised cost
Investment securities –Corporate bonds	Yes	Hold to collect and sell	At FVOCI
Investment securities –Equity Shares	No	Hold to collect and sell	At FVOCI
Investment securities –Equity Shares	No	Other business model	At FVPL
Other assets (excluding non-financial assets)	Yes	Hold to collect	At amortised cost

The Group, as a lessor recognises and measures the rights and obligations under a lease as per the general requirements of IFRS 16 Leases. Consequently those rights and obligations are not subject to the general recognition and measurement requirements of IFRS 9. However, the lease receivables recognised by the Group are subject to the derecognition and impairment requirements of IFRS 9.

(g) Impairment of financial assets

The Group assesses on a forward-looking basis the expected credit losses ("ECL") associated with financial assets at amortised cost and with exposures arising from lease commitments. The Group recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability- weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

This note further provides details about how ECL is computed, along with the 'three-stage' model for impairment adopted by the Group.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(g) Impairment of financial assets (Continued)

(i) ECL methodology

The key inputs used for measuring ECL are:

- probability of default ("PD")
- loss given default ("LGD")
- exposure at default ("EAD")

These figures are generally derived from internally developed statistical models and other historical data and they are adjusted to reflect probability-weighted forward-looking information.

PD is an estimate of the likelihood of default over a given time horizon. It is estimated as at a point in time. The calculation is based on statistical rating models, and assessed using rating tools tailored to the various categories of counterparties and exposures. These statistical models are based on market data (where available), as well as internal data comprising both quantitative and qualitative factors. PDs are estimated considering the contractual maturities of exposures and estimated prepayment rates. The estimation is based on current conditions, adjusted to take into account estimates of future conditions that will impact PD.

LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from any collateral. The LGD models for secured assets consider forecasts of future collateral valuation taking into account sale discounts, time to realisation of collateral, cross collateralisation and seniority of claim, cost of realisation of collateral and cure rates (i.e. exit from non-performing status). LGD models for unsecured assets consider time of recovery, recovery rates and seniority of claims. The calculation is on a discounted cash flow basis, where the cash flows are discounted by the original EIR of the credit exposure.

EAD is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, and expected drawdowns on committed facilities. The Company's modelling approach for EAD reflects expected changes in the balance outstanding over the lifetime of the credit exposure that are permitted by the current contractual terms, such as amortisation profiles, early repayment or overpayment, changes in utilisation of undrawn commitments and credit mitigation actions taken before default.

(ii) Credit-impaired

A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. It is credit impaired when contractual payments or accounts in excess are past due by more than 90 days and/or other quantitative and qualitative factors indicate that the obligator is unlikely to honour its credit obligations.

Evidence of credit-impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the lender, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- the disappearance of an active market for a security because of financial difficulties; or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(g) Impairment of financial assets (Continued)

(ii) Credit-impaired (Continued)

It may not be possible to identify a single discrete event - instead, the combined effect of several events may have caused financial assets to become credit-impaired. The Group and Company assess whether debt instruments that are financial assets measured at amortised cost or FVOCI are credit- impaired at each reporting date. To assess if sovereign and corporate debt instruments are credit impaired, the Group and Company consider factors such as bond yields, credit ratings and the ability of the borrower to raise funding.

A credit exposure is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment. For financial assets where concessions are contemplated but not granted the asset is deemed credit impaired when there is observable evidence of credit-impairment including meeting the definition of default.

(iii) Default

The Group considers a financial instrument or lease defaulted for ECL computations when the borrower becomes 90 days or more past due on its contractual payments.

The Group considers the following as constituting an event of default:

- The borrower is past due more than 90 days on any material credit obligation to the Group; or
- The borrower is unlikely to pay its credit obligations in full to the Group.

When assessing if the borrower is unlikely to pay its credit obligation, the Group takes into account both qualitative and quantitative indicators such as breach of covenants and financial performance.

The Group uses a variety of sources of information to assess default which are either developed internally by its internal specialist team or obtained from external sources.

(iv) Three-stage model

- A financial instrument that is not credit-impaired on initial recognition is classified in 'Stage 1' and has its credit risk continuously monitored by the Group:
- If a significant increase in credit risk ('SICR') since initial recognition is identified, the financial instrument is moved to 'Stage 2' but is not yet deemed to be credit-impaired. Details of SICR is further described below.
- If the financial instrument is credit-impaired, the financial instrument is then moved to 'Stage 3'.
- Financial instruments in Stage 1 have their ECL measured at an amount equal to the portion of lifetime expected credit losses that result from default events possible within the next 12 months. Instruments in Stages 2 or 3 have their ECL measured based on expected credit losses on a lifetime basis.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(g) Impairment of financial assets (Continued)

(iv) Three-stage model (continued)

The following diagram summarises the impairment requirements under IFRS 9:

Stage 1	Stage 2	Stage 3
Performing	**Under Performing**	**Default**
Financial assets for which credit risk has not significantly increased since initial recognition	Financial assets for which credit risk has significantly increased/deteriorated since initial recognition. However, there is still no objective evidence of impairment.	Financial assets which have defaulted but have not yet reached write-off.
12-month ECL	**Lifetime ECL**	**Incurred loss**

(v) Significant increase in credit risk ("SICR")

The Group considers a financial instrument to have experienced a significant increase in credit risk when one or more of the following quantitative or qualitative criteria have been met:

Quantitative criteria:

A financial instrument is considered to have experienced a significant increase in credit risk if the borrower is more than 30 days past due on its contractual payments, i.e. would move from Stage 1 to Stage 2.

Qualitative criteria:

For retail customers, if the borrower meets one or more of the following criteria:

- Short term forbearance;
- Extension to terms granted;

For corporate customers, if the borrower is on the watchlist or if the instrument meets one or more of the below criteria:

- Significant adverse changes in business, financial and/or economic conditions in which the borrower operates.
- Actual or expected forbearance or restructuring.
- Actual or expected significant adverse change in operating results of the borrower.
- Significant change in collateral value (secured facilities only) which is expected to increase risk of default.
- Early signs of cash flow/liquidity problems such as delay in servicing of trade creditors/leases.

The Group monitors all financial assets and undrawn lease commitments that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk the Group will measure the loss allowance based on lifetime rather than 12-month ECL.

The Group's and Company's accounting policy are not to use the practical expedient that financial assets with 'low' credit risk at the reporting date are deemed not to have had a significant increase in credit risk. As a result, the Group and Company monitor all financial assets and undrawn lease commitments that are subject to impairment for significant increase in credit risk.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group and Company compare the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognised.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(g) Impairment of financial assets (Continued)

(v) Significant increase in credit risk ("SICR") (Continued)

In making this assessment, the Group and Company consider both quantitative and qualitative information, as outlined earlier, that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Group's and Company's historical experience and expert credit assessment including forward-looking information.

The Group relies on the specialist team who uses external and internal information to generate a 'base case' scenario of future forecast of relevant economic variables along with a representative range of other possible forecast scenarios. The external information used includes economic data and forecasts published by governmental bodies and monetary authorities.

(vi) Forward economic information

The Group uses multiple scenarios to model the non-linear impact of assumptions about macroeconomic factors on ECL. The Group applies probabilities to the forecast scenarios identified. The Group has identified key drivers of credit risk and credit losses for each portfolio of financial instruments and, using a statistical analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses. A year-on-year GDP growth with a 1-quarter lead has been used as macroeconomic variable for forward-looking PD estimates. A simple linear regression model has been employed to estimate the relationship between the macroeconomic variable and PDs. The forecast of the macroeconomic variable is based on in-house generated projections for the Mauritian economy.

(vii) Movement between stages

Financial assets can be transferred between the different categories depending on their relative increase in credit risk since initial recognition. Financial instruments are transferred out of stage 2 if their credit risk is no longer considered to be significantly increased since initial recognition based on the assessments described above. Except for restructured leases, financial instruments are transferred out of stage 3 when they no longer exhibit any evidence of credit impairment as described above.

(viii) Write-off

Financial assets are written off either partially or in its entirety when the Group has no reasonable expectations of recovering them. This occurs when the Group determines that the customer does not have the capacity to repay the amount due or the collateral given by the customer is not sufficient to cover the exposure. The write off does not mean that the Group has forfeited its legal right to claim the sums due.

The Group retains the right to proceed with enforcement actions under the Group's recovery procedure and any recovery will be recognised in profit or loss under "Other income" as recoveries of advances written off.

(h) Modification of lease receivables

The Group sometimes renegotiates or otherwise modifies the contractual cash flows of finance leases to customers. When this happens, the Group assesses whether or not the new terms are substantially different from the original terms. The Group does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Whether any substantial new terms are introduced.
- Significant extension of the lease term when the borrower is not in financial difficulty.
- Significant change in the interest rate.
- Change in the currency the lease is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the lease.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(h) Modification of lease receivables (Continued)

If the terms are substantially different, the Group derecognises the original financial asset and recognises a 'new' asset at fair value and recalculates a new effective interest rate for the assets. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Group also assesses whether the new financial asset recognised is deemed to be credit- impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognised in profit or loss in net impairment of financial assets.

In the case where the financial asset is derecognised the loss allowance for ECL is remeasured at the date of derecognition to determine the net carrying amount of the asset at that date. The difference between this revised carrying amount and the fair value of the new financial asset with the new terms will lead to a gain or loss on derecognition. The new financial asset will have a loss allowance measured based on 12-month ECL except in the rare occasions where the new lease is considered to be originated-credit impaired. This applies only in the case where the fair value of the new lease is recognised at a significant discount to its revised par amount because there remains a high risk of default which has not been reduced by the modification. The Group monitors credit risk of modified financial assets by evaluating qualitative and quantitative information, such as if the borrower is in past due status under the new terms.

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognises a modification gain or loss in profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

Where modification did not result in derecognition, the estimate of PD reflects the Group's ability to collect the modified cash flows taking into account the Group's previous experience of similar forbearance action, as well as various behavioural indicators, including the borrower's payment performance against the modified contractual terms. If the credit risk remains significantly higher than what was expected at initial recognition the loss allowance will continue to be measured at an amount equal to lifetime ECL. If a forborne lease is credit impaired due to the existence of evidence of credit impairment, the Group performs an ongoing assessment to ascertain if the problems of the exposure are cured, to determine if the lease is no longer credit-impaired. The loss allowance on forborne leases will generally only be measured based on 12-month ECL when there is evidence of the borrower's reversal of the previous significant increase in credit risk.

(i) Derecognition of financial assets (other than on a modification)

The Group and Company derecognise a financial asset only when the contractual rights to the asset's cash flows expire (including expiry arising from a modification with substantially different terms), or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity. If the Group and Company neither transfer nor retain substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group and Company recognise its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group and Company retain substantially all the risks and rewards of ownership of a transferred financial asset, the Group and Company continue to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognised in OCI and accumulated in equity is recognised in profit or loss, with the exception of equity investment designated as measured at FVOCI, where the cumulative gain/loss previously recognised in OCI is not subsequently reclassified to profit or loss.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(j) Financial liabilities

A financial liability is a contractual obligation to deliver cash or another financial asset or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Group and Company or a contract that will or may be settled in the Group's and Company's own equity instruments and is a non-derivative contract for which the Group and Company are or may be obliged to deliver a variable number of its own equity instruments, or a derivative contract over own equity that will or may be settled other than by the exchange of a fixed amount of cash (or another financial asset) for a fixed number of the Group's and Company's own equity instruments.

Financial liabilities carried at amortised cost consist mainly of deposits from customers, borrowings, and other liabilities. All financial liabilities are recognised initially at fair value and in the case of borrowings, net of transaction costs incurred.

They are subsequently stated at amortised cost using the effective interest method.

Financial liabilities are derecognised when they are extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expired).

The exchange between the Group and Company and its original lenders of debt instruments with substantially different terms, as well as substantial modifications of the terms of existing financial liabilities, are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability. In addition, other qualitative factors, such as the currency that the instrument is denominated in, changes in the type of interest rate, new conversion features attached to the instrument and change in covenants are also taken into consideration. If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment.

If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortised over the remaining term of the modified liability.

(k) Leases

The Group as a Lessee

For short-term leases (lease term of 12 months or less), the Group has opted to recognise a lease expense on a straight-line basis as permitted by IFRS 16. This expense is presented within other expenses in profit or loss.

Operating leases - Group acting as the Lessor

Assets leased out under operating leases are included in equipment in the statement of financial position. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

Assets classified as operating leases are depreciated over their useful lives on a basis consistent with similar fixed assets.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(k) Leases (Continued)

Finance leases - Group acting as the Lessor

The Group is engaged in the provision of leases to both individuals and corporates. The Group's portfolio is made up of principally motor vehicles and equipment. As part of the wider risk management principles of the Group, the risks associated with the lease portfolio was monitored through rigorous credit assessment, determining the financed amount as part of the cost of the asset based on the customers' credit risk profile, setting up buy back agreements with suppliers for assets with high residual values, amongst others.

(i) Recognition and initial measurement

Under a finance lease, substantially all the risks and rewards incidental to legal ownership are transferred by the Group, and thus the lease payment receivable is treated by the Group as repayment of principal and interest income to reimburse and reward the lessor for its investment and services.

Initial direct costs such as commissions, legal fees and internal costs that are incremental and directly attributable to negotiating and arranging a lease, but excluding general overheads, are included in the initial measurement of the finance lease receivable and reduce the amount of income recognised over the lease term. The interest rate implicit in the lease is defined in such a way that the initial direct costs are included automatically in the finance lease receivable; there is no need to add them separately.

(ii) Subsequent measurement

The recognition of interest income shall be based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the finance lease. The Group aims to allocate interest income over the lease term on a systematic and rational basis. This income allocation is based on a pattern reflecting a constant periodic return on the Group's finance lease receivable.

Lease repayments relating to the period, excluding cost for services, are applied against the gross investment in the lease to reduce both the principal and the unearned finance income. Estimated unguaranteed residual values used in computing the Group's gross investment in a lease are reviewed regularly. If there has been a reduction in the estimated unguaranteed residual value, the income allocation over the lease is revised and any reduction in respect of amounts accrued is recognised immediately.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in finance lease receivables.

The Group applies the derecognition and impairment requirements in IFRS 9 to the net investment in the leases.

Impairment of lease receivables have been disclosed in Note 8(d).

(l) Equipment

Items of equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

If significant parts of an item of equipment have different useful lives, then they are accounted for as separate items (major components) of equipment.

3. MATERIAL ACCOUNTING POLICY INFORMATION(CONTINUED)

(l) Equipment (Continued)

Any gain or loss on disposal of an item of equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

When the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount.

Depreciation is calculated to write off the cost of items of equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is recognised in profit or loss.

The estimated useful lives of significant equipment are as follows:

Office equipment	5 years
Computer equipment	3 years
Motor vehicles	5 years
Furniture & Fittings	5 years

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

Assets under operating leases are depreciated over their expected useful lives net of any residual value.

(m) Intangible assets

Costs associated with maintaining software programmes are recognised as an expense as incurred. Costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Group are recognised as intangible assets when the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use;
- management intends to complete the software and use or sell it;
- there is an ability to use or sell the software;
- it can be demonstrated how the software will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- the expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads. Acquired computer software licences are capitalised on the basis of costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives of 3 to 10 years.

Expenditure that enhances or extends the benefits of computer software programmes beyond their original specifications and lives is recognised as a capital improvement and added to the original cost of the software. Computer software development costs recognised as assets are amortised using the straight-line method over their useful lives, but not exceeding a period of ten years.

The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(n) Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised in profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units).

Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(o) Cash and cash equivalents

Cash and cash equivalents comprise cash balances with banks. For the purpose of the presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of less than three months that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

(p) Repossessed assets

The Group classifies its repossessed assets as current assets held for sale under "Other Assets" since their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset, excluding finance costs and other selling costs.

(q) Deposits from customers

Deposits are received from individual and corporate clients. Deposits are repayable and derecognised on demand or when the deposits come to maturity.

Deposits are initially measured at fair value and subsequently measured at amortised cost using the effective interest rate method.

(r) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowing costs are recognised in profit or loss in the period in which they occur.

(s) Provisions

Provisions, including legal claims are recognised when the Group and Company have a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(s) Provisions (Continued)

Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(t) Income tax

The income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's and Company's liability for current tax are calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

A provision is recognised for those matters for which the tax determination is uncertain but it is considered probable that there will be a future outflow of funds to a tax authority. The provisions are measured at the best estimate of the amount expected to become payable.

The assessment is based on the judgement of tax professionals within the Group and Company supported by previous experience in respect of such activities and in certain cases based on specialist independent tax advice.

Deferred tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, if the deferred income tax arises from initial recognition of an asset or liability in a transaction, other than a business combination, that at the time of the transaction affects neither accounting nor taxable profit or loss, it is not accounted for.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group and Company expect, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred income tax is determined using tax rates that have been enacted or substantively enacted by the end of the reporting period and are expected to apply in the period when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group and Company intend to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(t) Income tax (Continued)

Other tax exposures

In line with the definition within the Income Tax Act 1995, Corporate Social Responsibility (CSR) is regarded as a tax and is therefore subsumed with the income tax shown within profit or loss and the income tax liability on the statement of

The CSR charge for the current period is measured at the amount expected to be paid to the Mauritius Revenue Authority. The Group is subject to the Advanced Payment System ("APS") whereby it pays income tax on a quarterly basis.

Corporate Climate Responsibility (CCR) Levy

Corporate Climate Responsibility (CCR) Levy was introduced by the Government of Mauritius, effective July 2024, following the enactment of the Finance (Miscellaneous Provisions) Act 2024. The CCR Levy is computed at the rate of 2% of the company's chargeable income, and applies to companies having an annual gross income exceeding MUR 50 million.

Fair Share Contribution (FSC) was introduced by the Finance (Miscellaneous Provisions) Act 2025 and is applicable for the period from 1 July 2025 to 30 June 2028 for companies whose supplies exceed Rs 24 million in an accounting year (or which are required to be registered under the VAT Act) and whose chargeable income exceeding MUR 24 million in an accounting year.

(u) Share capital and equity reserves

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as deduction, net of tax, from proceeds.

Capital contribution

The subsidiary of the Group has on the 28 June 2018 issued 20,000,000 5.5% Non-Cumulative Preference Shares of Rs 10 each to MCB Group Limited.

The reserves recorded in equity in the Group's statement of financial position include:

- Capital reserve - Capital reserve comprise mainly of movements arising in the reserves of associates.
- Revaluation and other reserve - Fair value adjustments, which comprise of the cumulative net change in the fair value of financial assets that has been recognised in other comprehensive income until the investments are derecognised or impaired. Other reserve comprises all the movements arising in the reserves of associates.
- Statutory reserve which represents 15% of the profit for the year of the subsidiary which is transferred in accordance with Section 21 (1) of the Mauritian Banking Act 2004; until the General Risk Reserve is equal to the stated capital.
- General risk reserve relates to amount set aside by the subsidiary in respect of impairment in the lease portfolio, in addition to provisions for expected credit losses computed under IFRS 9 to comply with regulatory requirements.

(v) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the Board to make decisions about resources to be allocated to the segment and assesses its performance, and for which discrete financial information is available.

Detailed analysis of operating segments are shown in Note 31 to the financial statements.

(w) Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's and Company's financial statements in the period in which the dividends are declared.

(x) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group and Company have a legal right to set off the amounts and intends either to settle on a net basis or realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRS, or for gains and losses arising from a group of similar transactions.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(y) Revenue recognition

Finance lease income is recognised over the term of the lease using the net investment method, which reflects a constant periodic rate of return on the net investment amount outstanding on the finance leases.

Operating lease income is recognised over the term of the lease using the straight-line method.

(z) Interest income and expense

Interest income and expense for all financial instruments except for those classified as held for trading or those measured or designated as at FVPL are recognised as 'Interest income' and 'Interest expense' in profit or loss using the effective interest method.

(aa) Fee and commission income

Fee and commission income are mainly processing fees on leases which are generally recognised on an accrual basis when the service has been provided. Lease commitment fees for leases that are likely to be drawn down are deferred (together with related direct costs) and recognised as an adjustment to the effective interest rate on the lease.

(ab) Pension benefits

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Other employee benefits

A provision for retirement gratuity is recorded for employees who are not covered (or who are insufficiently covered by the above pension plans) and are above a specific age band. The Group provides retirement benefits for its employees through a defined contribution plan which is funded by contributions from its subsidiary through its participation in the multi-employer pension scheme of The Mauritius Commercial Bank Limited.

Under the defined contribution plan, the Group has no legal or constructive obligation to contribute further to what has been contributed into the fund as defined in the rules of the scheme. Pension contributions are charged in the year to which they relate. The Company has an obligation under the current labour laws to pay a gratuity on retirement of its employees. Following the implementation of the Portable Retirement Gratuity Fund ("PRGF"), the Group is contributing for employees who are not part of any pension plan.

The present value of the gratuity payable under the Workers Rights Act 2019 is calculated annually by independent actuaries using the projected unit credit method. The present value of the gratuity is determined by the estimated future cash outflows using a discount rate by reference to current interest rates and the yield on bonds and treasury bills and recent corporate debenture issues. Where the present value of the gratuity payable on retirement is greater than five years of pension payable under the pension plan, the additional gratuity payable is recognised as a liability and disclosed as unfunded obligations under retirement benefits obligations.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(ab) Pension benefits (Continued)

State pension plan

Contributions to the Contribution Sociale Generalisée (CSG) are recognised in profit or loss in the period in which they fall due.

(ac) Vacation Leave

The vacation leave as per Section 47 of the Workers' Rights Act benefit qualifies as "other long-term benefit" as per IAS 19 and has to be accounted for by the companies in respect of all employees who will be eligible for this upon completion of the 5-year period. An estimate of the value of the benefit is made and accounted for at the reporting date irrespective of whether the Group settles the vacation pay in cash or grants leave to its employees.

(ad) Comparatives

Except when a standard or an interpretation permits or requires otherwise, all amounts are reported or disclosed with comparative information. Where IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors applies, comparative figures have been adjusted to conform with changes in presentation in the current year.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In applying the Group's material accounting policies, which are described in note 3, the Directors are required to make judgements (other than those involving estimations) that have a significant impact on the amounts recognised and to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the Group's material accounting policy information

The following are the critical judgements, apart from those involving estimations (which are presented separately below), that the Directors have made in the process of applying the Group's material accounting policy information and that have the most significant effect on the amounts recognised in financial statements.

(i) Lease classification

In preparing the financial statements, management had to consider whether the significant risks and rewards of ownership are transferred to the lessees in determining whether the leases should be classified as finance or operating lease. Management makes use of the guidance as set out in IFRS 16 *Leases* to classify leases between finance and operating leases.

(ii) Significant increase in credit risk

ECLs are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. IFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Group takes into account qualitative and quantitative reasonable and supportable forward-looking information.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

Critical judgements in applying the Group's material accounting policy information (Continued)

(iii) Establishing groups of assets with similar credit risk characteristics

When ECLs are measured on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics. The Group monitors the appropriateness of the credit risk characteristics on an ongoing basis to assess whether they continue to be similar. This is required in order to ensure that should credit risk characteristics change there is appropriate re-segmentation of the assets. This may result in new portfolios being created or assets moving to an existing portfolio that better reflects the similar credit risk characteristics of that group of assets. Re-segmentation of portfolios and movement between portfolios is more common when there is a significant increase in credit risk (or when that significant increase reverses) and so assets move from 12-month to lifetime ECLs, or vice versa, but it can also occur within portfolios that continue to be measured on the same basis of 12-month or lifetime ECLs but the amount of ECL changes because the credit risk of the portfolios differ.

(iv) Models and assumptions used

The Group uses various models and assumptions in estimating ECL. Judgement is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk.

(v) Sale and leaseback arrangements

The Group exercises significant judgement in determining whether a transaction qualifies as a sale in accordance with IFRS 15 Revenue from Contracts with Customers, which is a prerequisite for applying the sale and leaseback accounting model under IFRS 16 Leases. This assessment involves evaluating whether control of the asset has transferred to the buyer-lessee, considering indicators such as the transfer of legal title, physical possession, risks and rewards of ownership, and the buyer's ability to direct the use of and obtain substantially all the remaining benefits from the asset.

(vi) Business model assessment

The classification and measurement of financial assets depend on the results of the SPPI and the business model tests. The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective.
Judgement is required in assessing the relevant evidence including how the performance of the assets is evaluated, and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated.
The Group monitors the derecognition of financial assets measured at amortised cost or FVOCI prior to their maturity to understand the reason for their disposal, including whether the disposal is consistent with the objective of the business model in which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model in which financial assets are held continues to be appropriate.

Key sources of estimation uncertainty

The following are key estimations that the Directors have used in the process of applying the Group's material accounting policy information and that have the most significant effect on the amounts recognised in financial statements:

(i) Establishing the number and relative weightings of forward-looking scenarios and determining the forward-looking information relevant to each scenario:

When measuring ECL the Group uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

(ii) Determining PD and LGD

PD constitutes a key input in measuring ECL. PD is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions. LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account expected cash flows from collateral and integral credit enhancements.

The Directors estimate that a 1% change in lease loss rate will lead to a change in impairment of Rs 0.6m (2025: Rs 0.5m). Management believes that a 1% shift in loss rate is adequate to determine the sensitivity of impairment as a result of a change in loss rate.

5. FINANCIAL RISK FACTORS

The Group's activities expose it to a variety of financial risks, including:

- Credit risk;
- Liquidity risk;
- Market rate risk (including Interest rate risk & Currency risk).

5. FINANCIAL RISK FACTORS (CONTINUED)

Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits.

The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Board of Directors oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Audit Committee also regularly receives reports from the different lines of defence, including internal audit, on the reviews performed of the risk management controls and procedures.

The Risk Management Committee at the level of MCB Leasing Limited, the subsidiary, oversees the implementation of sound risk management procedures and reports to the Board of the subsidiary.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from lease receivables. The credit risk management and control are centralized in a credit risk management team which provides regular update to the Risk Management Committee and other governance forums at the level of the subsidiary.

Credit risk management

The Group's credit risk is mostly arising from the activities of its subsidiary for which the risk is managed through:

- Establishing credit policies, covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures, and compliance with regulatory and statutory requirements;
- Establishing the authorisation structure for the approval and renewal of credit facilities;
- Authorisation limits are allocated to Senior Officers. Larger facilities require approval by Managing Director, Members of the Credit Committee, or the Board of Directors at the subsidiary level;
- Renewals and reviews of facilities are subject to the same review process;
- Limiting concentrations of exposure to counterparties and sectors, in line with regulatory requirements and the subsidiary's internal policies;
- Developing and maintaining the subsidiary's risk gradings to categorise exposures according to the degree of risk of default;
- Developing and maintaining the subsidiary's processes for measuring ECL. This includes processes for reviewing and approving ECL figures, including determining SICR and any management overlays;
- Reviewing compliance with agreed exposure limits, including receiving regular reports on the credit quality of significant exposures, and monitoring of impaired exposures and the recovery actions.

Collateral management

A range of policies and practices are employed to mitigate credit risk. The most common of these is ensuring right from the offset that the customer's profile fits into the Group's risk appetite and has the right profile to service the borrowing without distress. In the case of finance leases, the ownership of the vehicles and equipment financed remain the property of the Group until full settlement of the lease and after which the title is transferred to the lessee. Collaterals for impaired leases are reviewed regularly by obtaining the fair value of the collaterals through independent qualified surveyors. Where the collateral values have decreased, an additional ECL is booked.

5. FINANCIAL RISK FACTORS (CONTINUED)

(a) Credit risk (Continued)

Collateral management (Continued)

Fixed and floating charges on assets are held for exposures. For the vast majority of leases, the underlying collateral is the leased asset itself, i.e. the leased equipment and vehicles. The lease facilities are effectively secured as the rights to the leased asset revert to the lessor in the event of default. Estimates of fair value are based on the value of collateral assessed at the time of borrowing, and generally are updated every year when a lease is individually assessed as impaired. The table below shows the gross amount of individually impaired assets and the allowance for credit impairment.

	2026	2025	**Collaterals held**
	Rs' 000	Rs' 000	
Leases			
Gross amount	**23,219**	29,587	Vehicles and
Stage 3 - Allowance for credit impairment	**14,883**	19,229	other equipment

The fair value of collateral for the impaired facilities amounts to Rs 8 m (2025: Rs 11 m). A provision of Rs 15 m (2025: Rs 19m) has been made on the impaired receivables.

There was no change in the collateral policy of the Group during the year.

Repossessed assets

As a last resort, management would consider repossessing the leased asset for impaired exposures.

Collaterals on finance leases repossessed in the books of the subsidiary as at 30 June were as follows:

	2026	2025
	Rs' 000	Rs' 000
Vehicles	**-**	1,568

These repossessed collaterals are sold to third parties to recover the investment in the leases.

Write-off policy

The Group writes off a lease balance (and any related allowances for impairment losses) when the Group's management determines that the leases are uncollectible. This determination is reached after considering information such as the occurrence of significant changes in the borrower/issuer's financial position such that the borrower/issuer can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure. For smaller leases, charge off decisions generally are based on a product specific past due status.

At 30 June 2026, amount written off was Nil (2025: Rs 6.7 m).

Credit risk concentration

The Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower. Limits on the level of credit risk are approved by the Board of Directors of the subsidiary company in line with regulatory requirements.

Concentrations of credit risk arise when several distinct counterparties or exposures have comparable economic characteristics, or such counterparties are engaged in similar activities or operate in the same industry sectors so that their collective ability to meet contractual obligations is uniformly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry.

5. FINANCIAL RISK FACTORS (CONTINUED)

(a) Credit Risk (Continued)

Credit risk concentration (Continued)

In order to avoid excessive concentrations of risk, a number of controls and measures to minimise undue concentration of exposure in the Group's portfolio have been implemented as per regulatory requirements. The Group's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Any identified concentrations of credit risks are controlled and managed in line with the Risk Appetite Framework of the Group.

The Group does not have any overseas exposures.

The Group monitors the credit quality of its different portfolios into 2 grades: performing and non-performing.

The performing portfolio relates to all credits which are less than 90 days overdue.

Credit quality analysis

	Net investment in lease receivables		Other assets	
GROUP	**2026**	2025	**2026**	2025
	Rs' 000	Rs' 000	**Rs' 000**	Rs' 000
Performing	**5,466,188**	4,380,076	**15,000**	67,376

	(58,676)	(45,787)	**(1,373)**	(1,850)
	5,430,731	4,363,876	**15,000**	67,346

All other financial assets are performing.

Maximum exposure to credit risk before collateral and other credit enhancements

The following table presents the maximum exposure at 30 June 2026 and 2025 to credit risk on financial instruments in the statement of financial position, before taking account of any collateral held or other credit enhancements after allowance for impairment and netting where appropriate.

	Category of financial instruments	GROUP Maximum exposure		COMPANY Maximum exposure	
		2026	2025	**2026**	2025
		Rs' 000	Rs' 000	**Rs' 000**	Rs' 000
Cash and cash equivalents	Amortised cost	**102,564**	90,461	**11,976**	38
Investment in debt securities	Amortised cost	**776,857**	778,301	**-**	-
Net investment in lease receivables	Amortised cost	**5,430,731**	4,363,876	**-**	-
Other assets	Amortised cost	**15,000**	67,346	**40,509**	43,865
		6,325,152	5,299,984	**52,485**	43,903

5. FINANCIAL RISK FACTORS (CONTINUED)

(a) Credit Risk (Continued)

Maximum exposure to credit risk before collateral and other credit enhancements (Continued)

For financial assets recognised in the statement of financial position, the exposure to credit risk equals their carrying amount. Other assets exclude VAT receivable and assets repossessed pending disposals of Rs 53 m (2025: Rs 69 m).

Credit risk from balances with banks and financial institutions is considered negligible, since the counterparty is The Mauritius Commercial Bank Limited, which is a reputable bank with high quality external credit rating. Likewise, for the Government Bonds and T-bills being held with the Government of Mauritius, credit risk is deemed as negligible.

Summary of credit risk

The disclosure below presents the gross carrying/nominal amount of financial instruments to which the impairment requirements in IFRS 9 are applied and the associated allowance for expected credit losses ('ECL').

GROUP

FY 2026	**Gross carrying / nominal amount**	**Allowance for ECL**	**Net carrying amount**
	Rs' 000	**Rs' 000**	**Rs' 000**
Net investment in lease receivables	5,489,407	(58,676)	5,430,731
Other financial assets			
- cash and cash equivalents	102,586	(22)	102,564
- investment securities	777,340	(483)	776,857
- other assets	16,373	(1,373)	15,000
Total gross carrying amount on the statement of financial position	6,385,706	(60,554)	6,325,152
Off balance sheet lease commitments	1,667,934	(567)	1,667,367
At 30 June 2026	**8,053,640**	**(61,121)**	**7,992,519**

FY 2025	Gross carrying / nominal amount	Allowance for ECL	Net carrying amount
	Rs' 000	Rs' 000	Rs' 000
Net investment in lease receivables	4,409,663	(45,787)	4,363,876
Other financial assets			
- cash and cash equivalents	90,479	(18)	90,461
- investment securities	778,757	(456)	778,301
- other assets	69,196	(1,850)	67,346
Total gross carrying amount on the statement of financial position	5,348,095	(48,111)	5,299,984
Off balance sheet lease commitments	2,249,581	(2,519)	2,247,062
At 30 June 2025	7,597,676	(50,630)	7,547,046

COMPANY

The ECL at Company level has been assessed as immaterial for both the current and prior years

5. FINANCIAL RISK FACTORS (CONTINUED)

(b) Market Risk - price risk

The Company and the Group are exposed to equity securities price risk because of investments held. This risk is managed by having a diversified portfolio.

A 5 % change in the fair value of the quoted investments would impact the equity by Rs 89.6 m (2025: Rs 96.5 m).

(c) Interest rate risk

Interest rate risk is the risk that a movement in interest rates will have a significant adverse effect on the financial condition of the Group. This is controlled by ensuring that there are no mismatches or gaps in amounts of financial assets and financial liabilities.

The principal source of funding of the Group is from fixed deposits by the public, whereby the majority of same bears fixed interest rate. On the other hand, the majority of leases granted by the Group are also at fixed rate hence ensuring a constant differential. Very few contracts are on variable terms.

A 25 basis point shift in the interest rate would result in an impact of Rs 5.6 m (2025: Rs 4.6 m) on the one-year earnings of the Group

At year end, the impact of any fluctuation in interest rate was not significant to the Group and to the Company on a standalone basis.

(d) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivery of cash or another financial asset.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding and the ability to close out market positions.

Management monitors rolling forecasts of the Group's liquidity reserve on the basis of expected cash flow and does not foresee any major liquidity risk over the next two years. The objective of liquidity management is to ensure that funds are available or there is assurance of the availability of funds, to honour the Group's cash flow commitments as they fall due, including off-balance sheet outflow commitments in a timely and cost effective manner. The Company's subsidiary has in place liquidity contingency plan and performs regular stress tests with respect to liquidity.

Liquid assets equivalent to not less than 10% of deposit liabilities are maintained at all times by the subsidiary. This is monitored continually and a weekly return of liquid assets and deposits is submitted to the Bank of Mauritius. The subsidiary of the Group has complied with this requirement as at 30 June 2026.

Net liquidity (gap)/surplus	(2,449,866)	195,498	1,080,950	667,938	(505,480)
Less allowances for credit impairment					(50,630)
					(556,110)
Undrawn commitments	1,773,975	475,606	-	-	2,249,581

The tables above present a maturity analysis of the Group's financial assets and liabilities. The above maturity analysis for net leases receivables and deposits from customers have not incorporated future payments as management considers that these amounts would not significantly alter the liquidity gap analysis.
Hence, the liquidity analysis is not shown on an undiscounted basis. The amounts shown are also gross of ECL. The amount for undrawn commitments is the maximum amount that may be drawn down under the lease commitments.

(e) Fair values of financial assets and liabilities

The fair values of those financial assets and liabilities not presented on the Group's and the Company's statements of financial position at fair values are not materially different from their carrying amounts. These assets and liabilities would be classified under level 2 of the fair value hierarchy.

Cash and cash equivalents comprise balances with The Mauritius Commercial Bank Limited. The estimated fair value of fixed interest bearing balances is based on discounted cash flows using prevailing money market interest rates for debts with similar credit risk and remaining maturity.

Net investment in lease receivables are leases which are net of impairment losses. The estimated fair values of leases to customers represent the discounted amount of estimated future cash flows expected to be received. Expected cash flows are discounted at current market rates to determine fair value.

5. FINANCIAL RISK FACTORS (CONTINUED)

(e) Fair values of financial assets and liabilities (Continued)

Deposits from customers are grouped by remaining contractual maturity for the purpose of estimating fair value. Fair values are estimated using discounted cash flows, applying current rates offered for deposits of similar remaining maturities. The fair value of a deposit repayable on demand is approximated by its carrying value.

Other assets and other liabilities are repayable on demand. Their fair values are therefore considered as being equal to their carrying value.

(f) Fair value hierarchy

The Group uses a hierarchy of valuation techniques based on whether the inputs to these valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Group's market assumptions.

These two types of inputs have created the following fair value hierarchy:

Level 1 : Quoted prices (unadjusted) for identical assets. This level includes listed equity securities.

Level 2 : Inputs other than quoted prices that are observable for the assets.

Level 3 : Inputs for the assets that are not based on observable market data.

Valuation techniques used to estimate the fair values of unquoted equity securities include models based on earnings/dividend growth, discounted cash flows and net asset values, whichever is considered to be appropriate. The Group has made certain assumptions for inputs in the models, including earnings before interest, depreciation, tax and amortisation (EBIDTA), risk free rate, risk premium, dividend growth rate, weighted average cost of capital, appropriate discounts for lack of liquidity and expected cash flows which may be different from actual.

Financial asset	Valuation technique	Significant unobservable inputs
Investment in equity securities at FVOCI (Unquoted equity shares)	Income approach	EV/EBIT Multiple Discount for lack of control and marketability

The higher the discount rate for lack of control and marketability, the lower the carrying amount of the investment.

If the discount rate was +/- 5%, whilst all other other variables were held constant, the carrying amount of the investment would have been +/- Rs 11 m.

(g) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. It is the Group's policy to ensure that it is not significantly exposed to currency risk by ensuring that borrowings denominated in foreign currencies are contracted in order to grant leases in the same currency. The Group is not exposed to fluctuations in exchange rates and any fluctuation in the exchange rate of EURO/USD against the rupee will have an immaterial impact.

5. FINANCIAL RISK FACTORS (CONTINUED)

(g) Currency risk (Continued)

The foreign currency profile is as follows:

	2026		2025	
	EURO	**USD**	**EURO**	**USD**
Group	**Rs' 000**	**Rs' 000**	**Rs' 000**	**Rs' 000**

6. CAPITAL RISK MANAGEMENT

The Group's objectives when managing capital are:

- to comply with the capital requirements set by the Bank of Mauritius for its leasing activities through its subsidiary
- to safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for its shareholders'and benefits for other stakeholders; and
- to maintain a strong capital base to support the development of its business.

There has been no change in the capital risk management policies of the Company from the prior year.

Quantitative data about what the Group manages as capital:

	GROUP		COMPANY	
	2026	2025	**2026**	2025

Sale and leaseback arrangements

As part of its leasing operations, the Group has entered into sale and leaseback transactions with customers whereby assets are purchased and leased back to the seller under finance leases. The resulting finance lease receivables are recognised at the net investment in the lease and presented within lease receivables. At 30 June 2026, finance lease receivables arising from sale and leaseback transactions amounted to Rs 0.3bn (2025: Rs 0.5bn). Refer to note 4 (v) for the judgement exercised by management.

*Assets under buyback agreements which have been invoiced and for which funds have not yet been received at year end.
**The Group's inventories comprise operating leases which have ceased to be rented and have reached maturity date. On the date, the contract ceases to be leased out, it is transferred to inventories at its carrying amount. At year end,the inventories are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of the business, less estimated costs necessary to make the sales. Once the buyer is identified and the invoice raised, a receivable is recognised.

15. DEPOSITS FROM CUSTOMERS

Impact of:				
Income not subject to tax	**(85,603)**	(74,177)	**(20,604)**	(25,442)
Expenses not deductible for tax purposes	**86,251**	60,727	**7,534**	7,250
Deferred tax charge (Note 18)	**3,694**	21,787	**-**	-
Corporate Social Responsibility contribution	**128**	511	**128**	252
Under/(over) provision in previous years	**1,670**	747	**-**	(4)
Income tax charge	**25,955**	23,244	**609**	1,198

27. DIVIDENDS

On 26 September 2025, the Board of Directors of Fincorp Investment Limited declared final dividends of Rs 0.70 per share at Company level for the year ended 30 June 2025 (2024: Rs 0.70)

Dividends paid to the ultimate holding Company by MCB Leasing Limited on 5.5% non-cumulative preference shares amounted to Rs 11 m (2025: Rs 11 m).

28. EARNINGS/(LOSSES) PER SHARE

Earnings per share is calculated by dividing the profit attributable to equity holders of the parent by the number of equity shares in issue and ranking for dividend.

	GROUP		COMPANY	
	2026	2025	**2026**	2025
Profit/(Loss) attributable to equity holders of the parent (Rs'000)	**432,047**	(202,014)	**89,728**	126,415
Number of shares in issue and ranking for dividend (thousands)	**103,355**	103,355	**103,355**	103,355
Earnings/(Losses) per share (Rs.)	**4.18**	(1.95)	**0.87**	1.22

29. CONTINGENT LIABILITIES

(a) Lease commitments

At 30 June 2026, the Group had commitments amounting to Rs 1,668 million in respect of undrawn lease commitments (2025: Rs 2,250 million).

30. OPERATING LEASES

	GROUP	
	2026	2025
Future minimum leases receivable under non-cancellable operating leases may be analysed as follows:	**Rs' 000**	Rs' 000
Up to 1 year	**424,185**	378,826
Over 1 year and up to 2 years	**315,640**	299,748
Over 2 years and up to 3 years	**244,584**	218,378
Over 3 years and up to 4 years	**181,197**	148,963
Over 4 years and up to 5 years	**96,922**	87,727
Over 5 years	**43,335**	50,261
	1,305,863	1,183,903

31. OPERATING SEGMENTS

Operating segments are reported in accordance with the internal reporting whose responsibility is to allocate capital and resources to the reportable segments and assessing their performance.

All operating segments used by the Group meet the definition of a reportable segment under IFRS 8.

The Group's income, expenses, assets and liabilities are derived mainly through its Mauritian operations.

The following summary describes the operations of each reportable segment.

Reportable Segments	Operations
Leasing	Offering finance and operating leasing solutions and takes deposit
Investing	Investing in priority in the financial services sector
